

## **Ch 1 Problems**

J Edward Ladenburger

25 Aug 09

### Problem 3

#### Given

Clearly describe the problem, writing down all information so you do not have to look at the text again. Draw sketches or tables to organize information when possible. Define variables.

#### Find

Clearly state the problem. What are you to answer?

#### Plan

Describe your approach here... Collect relevant theorems and laws and formulas

#### Calculations

Perform the necessary calculations and show your reasoning.

#### Solution

A nicely written sentence solution goes here.
